C.A.C. & CARF Recognition

SIVA Trainer Recertification Course

SIVA Training is an evolving model that reflects real time trainer experience, current neurodevelopment / attachment research and empirically guided clinical judgement. Recertification is also an opportunity for SIVA Training to incorporate active Trainer feedback and to make adjustments in both content and the manner in which the content is facilitated to maximize participant relatedness and overall experience.

Prior to the recertification date, registered Trainers will receive an online training module that will be completed in advance of the session and critically reviewed as a group.

All new training materials will be shipped in advance of the session. All Trainers must maintain audio and visual presence during the training to receive full certification.

We are looking forward to seeing and hearing from all of you. Register online Today!
